## CHAPTER 2

# How can this work? What can we do?

I really want to feel of value that I made the right decision to get my education.

Most people agree that they would not change their college years for anything. They learned a completely new skill, broadened their horizons and make life time friends.

It truly is an amazing path on the journey of life that simply transforms us into who we will be referred to for the rest of our lives. Our chosen profession.

## CHAPTER 2

# How can this work? What can we do?

Even though you really enjoy your work and you find it challenging, at the end of the day, how will that help generate the extra peace of finances that sometimes keep you up at night? How is it that we are still not making ends meet?

We can help you, reach out and contact me.

# CHAPTER 3

## Choices, Choices, Choices

There are so many options out there for you that the choice is really, truly yours!

### 1. You Could get another Job

Honestly, that is why you went to college, so that you would not have to have a second job. You did that in college so that you would not have to do it once you got your degree. What will have to give if you do that?

Sadly, the odds are against you. If your interviewer knows that you have a “daytime” job, they may pass you over.

Not everyone is cut out to welcome Wal-Mart shoppers, fold clothes for ungrateful customers, or make fluffy drinks at the local coffee shop. You did that in college, you don’t want to go backwards.

# CHAPTER 3

## Choices, Choices, Choices

### 2. You could volunteer

This option would give you a chance to share your gifts and knowledge with those in your community or across the world.

To give you a sense of value and purpose.

Unfortunately, volunteering won't add to a limited household income. However, if you do, it is one of the best, most fulfilling experiences available. While it may not make you rich in your wallet, it can make you rich in your life.

You will feel as if you have a purpose.

# CHAPTER 3

## Choices, Choices, Choices

### 3. Be Your Own Boss

Another option is that you can use your hobbies and passions... and turn them into cash. Many want a low-cost, business they can run part time so they can still enjoy their leisure and work with less stress.

You can be a part of a business where all of the resources you would need are given to you. You'll receive top-of-the-line training.

You can choose when and where you would like to work. You can embark on a new adventure into a successful market – all from the comfort of where you may be with an internet connection.

# CHAPTER 4

## Enhancing your Career

There's nothing as empowering and life-changing as working from where you want to! We know there are millions of people looking to supplement or replace their income, and this is a perfect way to do that!

Most people who are focused on reducing their debt, dedicate approximately

10 – 15 hours a week to their business.

We will show you how to find the time.

## CHAPTER 4

# Enhancing your Career

## BENEFITS

- ✓ **Low Risk** – Most of us, don't like risk and will often do everything we can do to avoid it completely. However, in business, you simply cannot eliminate risks, you learn to minimize them in order to be successful. The advantage of starting a business is that it is a very small risk to get you started.
- ✓ **High demand for Quality Products** – One of the great things about this business is that people are already purchasing this product!

People *want* the products that you are providing them with the assistance they *need* to get what they want.

The questions that you need to ask yourself:

- Would I use this product if I could not make money from it?
- Will this product benefit a customer outside of giving them a chance to make money?
- Would I make their lives better by providing them with this product?

If the answers to these questions are a "yes," run with it! There is no better time than now to start your incoming cash flow!

## CHAPTER 4

# Enhancing your Career

- ✓ **Low operating cost** – Unlike traditional brick-and-mortar businesses, this model makes it entirely possible to run a business at low costs. A good mentor should allow you to piggyback on their expertise, knowledge, show you how to find and get leads, and help you generate the funds to pay off your initial investment and get in profit early in the life of your business!
- ✓ **Leverage** – This is a ***people*** business. It is a business that consists of helping customers find what they want/need and helping others create businesses. It's a perfect example of a 'win-win' relationship – you reap the rewards by leveraging the efforts of those you help.
- ✓ **Flexibility & Freedom** – We can do today what business owners 15 years ago could not do and that's to make our business portable... you can work anywhere as long as you have an internet connection! The internet will also allow you to access people in areas that you would have no access to otherwise (that means other cities/towns, countries, and even continents)! When all the pieces are in place, the life of a business owner in this industry, can be very fulfilling indeed – believe me, I know from experience!

## CHAPTER 5

# Owning your own Life

Before deciding whether or not this is a good decision for you, it's important to remind yourself to keep perspective of your situation.

Owning a business is truly the American Dream. Every single person on our team dreamed about it and yearned for it. And we've been blessed enough to make it a reality.

[\*Click here to get started\*](#)

## CHAPTER 6

# Owning your own Life

While many yearn for it, a majority of those who want, dream, and hope for this reality will never act upon it.

Why Not?

Was it easy? Being really, really honest ... no, it wasn't easy. But, is anything in life worth having truly easy?

It can be tough and that's why we rely on each other so much.

Everyone I know needs a little help, sometimes.

But if your dream matters that much to you, know that you can 100% achieve it!

There's nothing more fulfilling than working hard toward, and achieving a goal. Some people make it harder than necessary on themselves. Others work smart. Building your own business takes courage, perseverance, and drive.

Businesses has evolved, and you're a lot more likely to succeed if you have a support system and ongoing training. If you're happy with how much money you're bringing in now, that's great!

If you're not, keep an eye out for future communication from us because we can help you! We've been there, and we're enjoying our success.

We'll help you work smart and move forward.
